Medical Requirements 2027

Festivalul Natației – Trofeul YES Swimming | 2027

Required certificate

Amateurs must provide clearance from an authorised sports-medicine provider confirming fitness to participate in a swimming competition. FRNPM-registered athletes must provide favourable sports-medical clearance.

Any authorised sports-medicine clinic is accepted; Superfit is a recommendation, not a requirement.

Upload and verification

Upload via the secure “Medical Documents” module on festivalulnatatiei.ro as JPG, PNG or PDF, maximum 5 MB, during the 5–10-day period before the edition. Do not email it as an attachment.

Access uses the registration code and temporary email verification. The certificate is reviewed by the CS YES Swimming president. A paid reservation does not replace medical clearance.

Privacy

Only evidence of fitness is requested, not diagnoses, test results or medical history. Documents are not public and are excluded from participant exports.

Retention, deletion and applicable legal exceptions are described in the Privacy Policy; the operational rule is removal from active storage within 30 days after the edition.
